Raymond Silverio
Senior Project Architect

Profile

Raymond Silverio received his Bachelor in Architecture from Mapua Institute of Technology, in Manila, Philippines. Mr. Silverio remains a registered architect in the Philippines since 1987. His 22 years of experience has allowed him to work in many different International cities, from Singapore, to New York, to his arrival in Atlanta. He has been heavily involved in the design and production of construction contract documents for a variety of product types. While his most recent experience has been focused on Multifamily Residential projects, he has ample experience with Commercial Retail, Educational, and Industrial facilities. He is experienced in all phases of architectural design and construction. Mr. Silverio is a Senior Project Architect for our firm and a significant asset to the construction documentation of our projects.
